

## **Prof. Stan Fenwick**

**SEA Regional Coordinator, Fleming Fund**

**Mott MacDonald**

**Thailand**

Prof. Fenwick graduated as a veterinarian from the University of Glasgow in 1978. He also has Masters degrees in Aquatic Veterinary Studies (Stirling University) and Tropical Veterinary Medicine (Edinburgh University). He completed a Ph.D. at Massey University in 1997 on *Yersinia* infections in New Zealand. He has extensive experience in epidemiology, rapid diagnostic methods, implementation of disease control strategies, zoonoses, food safety, antimicrobial resistance (AMR), and One Health. He is Emeritus Professor VPH at

Murdoch University, and has Adjunct Professorships at Tufts University, Thammasat University, Hanoi Medical University, and RCSI & UCD Malaysia. He has worked as a veterinarian in the United Kingdom, Kenya, Yemen, New Zealand, and Australia. Prof. Fenwick is now SEA Regional Coordinator of the Fleming Fund, a UK Aid programme managed by the Department of Health and Social Care, which aims to strengthen AMR surveillance and generate, share and use data to improve antimicrobial use and reduce antimicrobial resistance.
